RG104 E-1 Box 135 Aug-Sep 1885

Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 25 Septemb., 1885.

Sir,

Agreeably to your request I have prepared the accompanying table of all the employed on my roll, collected and executed by Mr. N. B. Boyd, Asst. M. & R., with his usual care.

It is doubtful whether Provand will make a melter, and Finn will certainly not, altho they were designed as such. On the other hand, Lamb and Brown prove to be excellent melters, having been so employed for some time past. Flinn, McKeown, Sullivan, Swope, Nunemiller and Malloy, (all new hands) give excellent promise of being superior hands, some of them melters, yet to be tried.

Very Respectfully

Hon. D. M. Fox
Superintendent

I. A. C. Booth.
M. & R.
